

WATERFIT MK III CHAMBER

"METERFIT" CHAMBER MKIII

Gunmetal casting located at the bottom of the chamber, with non-return valve positioned under the meter. An easily-detached 'click-fit' base and incorporates 3/4" nominal waterways for minimum headloss and a 3/4" stoptap.

Chambers are integral units, fully assembled and pressure tested to eliminate on-site adjustment of internal joints.

KEY FEATURES

- ▶ All metal fittings
- ▶ Integrated stop-cock and non-return
- ▶ Female ends for easy connections
- ▶ Metal lid (plastic option)
